

HXLIGHTING™

Integrated Strip Fixtures

HXL Integrated Strip Fixtures provide a safe, economical and environmentally friendly fixture replacement solution. Ballasts are eliminated resulting in lower ongoing operation and maintenance costs.

Features

- **Eco** – Earth-friendly design contains no mercury or lead.
- Available to fit 1x4, 2x2 and 2x4 openings
- Pre-wired for line-voltage use (no ballast required)
- Reduces operating and maintenance costs
- White multi-faceted reflectors included (91% reflectance)
- Integrated drivers (not replaceable)
- Integrated wiring box with ½" knockouts for ease of installation
- Can be integrated with emergency backup lighting systems
- 50,000 user hours
